INTRODUCTION

In my tech journey, I've embraced versatility. While 1 excel in various stacks like Frontend, Backend, Devops, AI, etc, I don't limit myself, I adjust to each project's needs, readily learning new skills if required. Whether its a new language, framework, or tech trend, I thrive on adapting to fulfill company requirements and user satisfaction.

Courses: Web Dev + DevOps Cohort by Harkirat Singh (100xDevs)
